PCR – 10.07%  
TBR – 9.87%  
OTR – 16.43%

In 2024, we developed and released two sustainable material content tires

75% PCR tire      80% TBR tire  
6.0 RR coefficient      3.8 RR coefficient  
EU Label Grade A

# Sailun Group ESG Ratings

SAILUN GROUP 601058.SH

## ESG Rating Distribution (Auto Components)

Wind has developed a rigorous rating methodology based on the core connotation of ESG, aligning with international standards and frameworks, and incorporating the characteristics of Chinese companies, to assess the company's essential ESG performance, risk and its ability to operate sustainably.

Focusing on the ESG risks and opportunities of each industry, the companies are rated on a AAA-CCC scale relative to the performance of their industry peers. Wind ESG rating is updated annually or in response to major changes.

# Sailun Group ESG Ratings

SAILUN GROUP CO., LTD. 601058.SH

**MSCI**  
ESG RATINGS

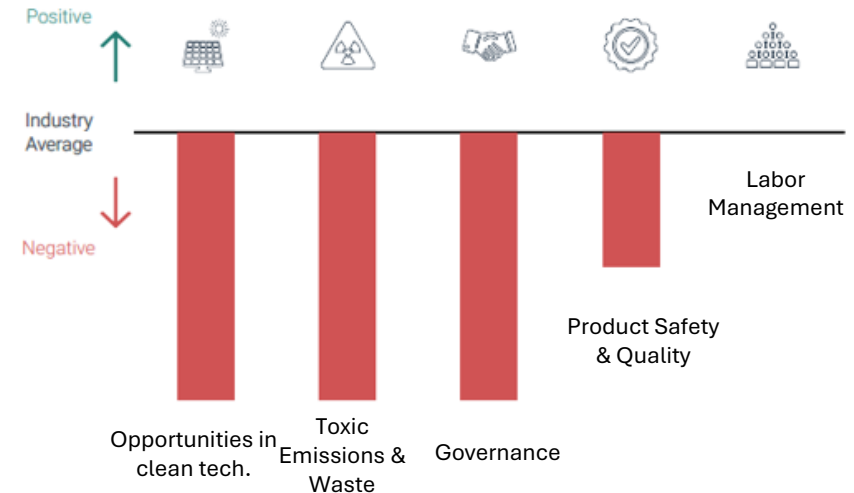

CCC B BB BBB A AA AAA

RATING ACTION DATE: August 29, 2023

LAST REPORT UPDATE: May 15, 2024

## Score attribution by key issue

This chart highlights the company's positioning relative to the industry average for each Key Issue that contributed to its ESG Rating as of May 15, 2024.

Sailun has been categorized as part of the “automotive parts” industry, Fuyao Glass is also categorized in this category with the highest rating in the category of “BB”. Sailun and Linglong are the only two Chinese tire companies to be listed on MSCI and are both rated at “B”.

MSCI ESG ratings are a tool that helps investors evaluate how well a company manages environmental, social, and governance (ESG) risks and opportunities that could impact their finances. MSCI ESG ratings are based on a scale from AAA (best) to CCC (worst), and companies with higher ratings are considered to have strong ESG management practices and lower exposure to ESG risks.

# Sailun Group EUDR Preparations

Sailun Group is working on details and implementation for EUDR regulations within our current system, with our suppliers and with our partners. Below are details regarding our EUDR evaluation process. Rest assured that Sailun Group will have all processes, data, and formats prepared for all shipments entering the EU on the first day of 2025.

## **Stage 1: Due Diligence, Traceability and Evaluation**

- 1) Evaluation and determination of factory site isolation management plan.
- 2) Supplier compliance and compliance report review
- 3) Internal traceability test
- 4) Improvements required for process review and compliance system.

**Planned Completion: August 15<sup>th</sup>**

## **Stage 2: Establishing and Improving EUDR Compliance Policy and System**

- 1) Establish EUDR Compliance Format (data, documentation, and compliance results)
- 2) Update and improve the compliance system (supplier reporting and management)
- 3) Training and assistance

**Planned Completion: August 31<sup>st</sup>**
